*Solid Protection
for Your Business**

You experience a total loss of one of your company vehicles. The value of the vehicle does not include the permanently installed telematics device you installed a month prior to the accident.

Acadia's program extends coverage on your vehicles to include these permanently installed devices, allowing you to focus more on the road ahead.

*Loss scenarios are not intended to imply that coverage will always exist under any specific policy. Your agent can help build the right insurance portfolio for you.
